ND Corgis One Year Health Guarantee

In order for this guarantee to be valid, Buyer has 7 business days from the date of receiving puppy to have a veterinary exam done on the puppy to validate this one year health guarantee.

Documentation from veterinarian or vet technician of puppy visiting and passing health exam must be provided to seller within 7 days of visit via picture, email or text message.

If puppy does not pass the first health exam completed within the 7 business days of receiving puppy, buyer will receive a full refund of the sale amount of the puppy and return the puppy to seller within 7 days. ***Seller will refund the full sale amount of puppy upon receiving puppy back.***

If buyer chooses to keep the puppy with documented disabilities, disorders, disease and or anomalies, the one year health guarantee will be terminated at that time and will not receive a refund from seller. The buyer fully understands the risks and expenses that could be incurred with keeping the puppy and releases the seller.

If puppy dies within the first year, and buyers come back to the seller, seller then asks buyer to have an autopsy done to diagnose death, at buyer's expense if the buyer requests refund or replacement.

Buyer is to see that the puppy receives full vaccinations and booster shots suggested by their licensed veterinarian within the vet's recommended vaccination schedule. If the puppy is not vaccinated within recommended one year time frame, this one year health guarantee will no longer be valid for buyer's use.

Buyers have received, read and fully understand terms and conditions of the one year health guarantee.
